

## Update MN|5.2, EN

### MobileNavigator|5 (Version 5.2)

Software update for MobileNavigator|5 (Version 5.0) or MobileNavigator|5 (Version 5.1) to MobileNavigator|5 (Version 5.2).

#### Download:

File size: approx. 13 MB

Release date: 07.12.2005

#### Note:

This update is exclusively designed for use on Pocket PCs on which one of the following operating systems is installed:

- Windows Mobile 2003
- Windows Mobile 2003 Second Edition
- Windows Mobile 5.0

You must already have uninstalled the old version of MobileNavigator|5 before you run this update. This update may not be installed on PNA or mobile phone platforms.

#### Changes and improvements:

- Windows Mobile 5.0 support
- Square Layout support (240 x 240 pixel resolution)
- Various performance optimisations

#### Files:

The update to MobileNavigator|5 (Version 5.2) is available in two different variants. Ensure you have downloaded the correct version for your device:

Update for Pocket PC using the operating systems:

- Windows Mobile 2003
- Windows Mobile 2003 Second Edition

Use the file "MN52\_Update\_WM2003.cab".

Update for Pocket PC using the operating systems:

- Windows Mobile 5.0

Use the file "MN52\_Update\_WM50.cab".

## Update MN|5.2, EN

### There are two installation methods:

- Installation via Microsoft ActiveSync
- Installation via memory card

To perform this update you must have the activation code that you originally used to enable your old version of MobileNavigator|5. If you no longer have the activation code to hand, you can view it in your MyNavigon Portal under <http://www.navigon.com>. Make sure you have the activation code to hand BEFORE you carry out the update.

### Installation instructions – option 1 (Update via Microsoft ActiveSync)

1. Connect your Pocket PC to the desktop PC. The Microsoft ActiveSync program opens.
2. Uninstall your old version of MobileNavigator|5 from your Pocket PC. To do this, proceed as follows:
  - In the Microsoft ActiveSync program, click on the "Tools" menu item.
  - Click on "Software". A window displaying all the programs installed on your Pocket PC appears.
  - Select the "NAVIGON MobileNavigator 5" and then click on the "Remove" button.
  - After you have uninstalled the program, carry out a soft reset on your Pocket PC (use a pencil in the opening intended for the soft reset of your Pocket PC). Then restart your Pocket PC and the "Today screen" appears.
3. With the aid of your Windows Explorer, copy the downloaded update file to the "Temp" directory of your Pocket PC. You will find it under "Mobile device" – "Pocket PC workplace" - "Temp".
4. On the Pocket PC, open the File explorer ("Start" - "Programs" - "File Explorer") and open the "Temp" directory ("My device" - "Temp").
5. Tap on the update file in order to automatically launch the update process. The progress of the installation is displayed on the progress bar.
6. After installation, launch MobileNavigator|5 ("Start" - "Programs" - "MobileNavigator 5").
7. Activate the MobileNavigator|5 (Version 5.2) update by entering the activation code that you originally received when you installed the old version of MobileNavigator|5.

## Update MN|5.2, EN

### Installation instructions – option 2 (Update via memory card)

1. Uninstall your old version of MobileNavigator|5 from your Pocket PC. To do this, proceed as follows:
  - On your Pocket PC tap "Start" - "Settings". Tap on the "System" tab, then tap "Remove programs".
  - Select the "NAVIGON MobileNavigator 5" and then tap on the "Remove" button.
  - After you have uninstalled the program, carry out a soft reset on your Pocket PC (use a pencil in the opening intended for the soft reset of your Pocket PC). Then restart your Pocket PC and the "Today screen" appears.
2. If necessary, connect your card reader to the PC.
3. With the aid of your Windows Explorer, copy the downloaded update file to a memory card.
4. Insert the memory card in the Pocket PC.
5. On the Pocket PC, launch the File explorer ("Start" - "Programs" - "File Explorer").
6. Open the memory card's directory ("My Device" - "SD Card").
7. Tap on the update file in order to automatically launch the update process. The progress of the installation is displayed by a progress bar.
8. After installation, launch MobileNavigator|5 ("Start" - "Programs" - "MobileNavigator 5").
9. Activate the MobileNavigator|5 (Version 5.2) update by entering the activation code you originally received when you installed the old version of MobileNavigator|5.

**Have fun navigating.**
